Information on the seminar called Development of Timber Structures

In the frame of the TEMTIS project a seminar called Development of Timber Structures took place in Press Centre of the complex of Trade Fairs Brno as a part of the supporting programme of Building Fairs Brno 2007. The seminar was organized in cooperation of National Building Centre (NSC), Association of Timber Constructions Suppliers (ADMD) and VSB-Technical University of Ostrava.

The seminar is considered as very successful both from the aspect of great interest of students and wide public, suitable location and date as well as expert personalities. The seminar took place under the auspices of Doc. Ing. Alois Materna, CSc., MBA, the Dean of the Faculty of Civil Engineering of VSB-Technical University of Ostrava.

The main speakers of the seminar were Ing. Antonín Lokaj, Ph.D. from VSB-TU Ostrava, Doc. Dr. Ing. Zdeňka Havířová and Doc. Dr. Ing. Petr Horáček from Mendel University of Agriculture and Forestry in Brno, Doc. Ing. Bohumil Straka, CSc. from Brno University of Technology, Doc. Ing. Petr Kuklík, CSc. from Czech Technical University in Prague and Ing. Jiří Pohloudek from RD Rýmařov.

The seminar participants obtained a lot of information materials including a CD with seminar proceedings.

The second seminar in the frame of the TEMTIS project will take place in Graz, Austria in June 2007.
